700cc Grease Cartridge

700cc Grease Cartridge

◆ Order Code

Order Code	Grease Type	Grease Viscosity	Minimum Order Quantity Requirement
I01D0021	Mobil EP000	NLGI 000	--
I01D0012	Mobil EP0	NLGI 0	--
I01D0013	Mobil EP1	NLGI 1	100

◆ Features

1. 700cc grease cartridge is suitable for KACP-07, KABP-07, KGCP-07, KGNP-07, KGBP-07, KGNBP-07, and POM-AP-07 types grease lubricators.
2. Standard 700cc grease cartridge is filled with Mobil grease. Please specify when you place an order if you require a different brand.

◆ Notice

1. Please discard the empty used grease cartridge and replace a new one. Do not refill grease into the used grease cartridge.
2. Please hold the grease tank tightly to prevent it from popping out by the spring force while disassembling.
3. Before replacing a new grease cartridge, lightly squeeze out a little grease in the grease cartridge to prevent air from entering the lubricator.

◆ Instruction of Replacing 700cc Grease Cartridge

1		Hold the grease tank tightly and turn it anticlockwise to disassemble it from the grease tank holder.	5		Assemble the new grease cartridge to the grease tank holder by turning it clockwise.
2		Take the grease tank out and put it aside.	6		Assemble the grease tank back to the grease tank holder.
3		Rotate the used grease cartridge anticlockwise to remove it from the grease tank holder and dispose of it properly.	7		Rotate the grease tank clockwise to assemble it with the grease tank holder to complete the replacement of the grease cartridge.
4		Before replacing a new grease cartridge, lightly squeeze out a little grease in the grease cartridge to prevent air from entering the lubricator.
